**Note** Although the Payables Management module is date-sensitive, the SmartList objects, the Payables Management summary reports, and the **Amounts Since Last Close** view of the Vendor Yearly Summary window are updated based on the closing of the Payables Management module. Therefore, we recommend that you follow these steps so that the SmartList objects, the Payables Management summary reports, and the **Amounts Since Last Close** view of the Vendor Yearly Summary window are correct.

1. Post all transactions for the calendar year.
2. Print the Aged Trial Balance with Options report.
3. Make a backup that is named "Pre-1099 Edits."
4. Verify the 1099 information and edit it if it is required.
5. Print the 1099 statements.
6. Make a backup that is named "Pre Year-End."
7. Close the calendar year.
8. Close the fiscal periods.
9. Close the tax year.
10. Make a backup that is named "Post Year-End."

## Use this checklist for closing your fiscal year

1. Post all transactions for the fiscal year.
2. Print the Vendor Period Analysis Report.
3. Make a backup that is named "Pre Year-End."
4. Close the fiscal year.
5. Close the fiscal periods.
6. Make a backup that is named "Post Year-End."

## Instructions

### Step 1: Post all transactions for the year

Post all transactions for the year before you close the year. If you want to enter future period transactions before you close the year, create a new batch for the future period transactions. Save the future period transactions in the new batch, but do not post the new batch until after the year has been closed.

The following areas of Microsoft Dynamics GP are not date-sensitive:

- The **Amounts Since Last Close** view of the Vendor Yearly Summary window
- SmartList objects
- Vendor Summary reports

These areas of Microsoft Dynamics GP will be incorrect if you do not close the payables year after you enter all 2013 transactions and before you enter all 2014 transactions. However, the **Amounts Since Last Close** view of the Vendor Yearly Summary window is editable. Therefore, you can update the information in the **Amounts Since Last Close** view of the Vendor Yearly Summary window if it is required.

To access the **Amounts Since Last Close** view of the Vendor Yearly Summary window, follow these steps:

1. On the **Cards** menu, point to **Purchasing**, and then click **Summary**.
2. In the Vendor Credit Summary window, type a vendor ID in the **Vendor ID** field, and then click **Yearly**.
3. In the **Summary View** list, click **Amounts Since Last Close**.

To view the SmartList columns that are affected, follow these steps:

1. Open SmartList. To do this in Microsoft Dynamics GP, click **SmartList** on the **Microsoft Dynamics GP** menu.
2. Expand the **Purchasing** node, and then click **Vendors**.
3. Click **Columns**.
4. Click **Add**.

Review the changes that are included in the Payroll year-end update. To do this, visit the appropriate Microsoft Web site:

## Step 5: Make a backup that is named "Pre-1099 Edits"

Create a backup, and then put the backup in safe, permanent storage. A backup gives you a permanent record of the company's financial position at the end of the year, and this backup can be restored later if it is required. A backup lets you recover data quickly if a power fluctuation or other problem occurs during the year-end closing procedure.

To create a backup in Microsoft Dynamics GP, follow these steps:

1. In Microsoft Dynamics GP, point to **Maintenance** on the **Microsoft Dynamics GP** menu, and then click **Backup**.
2. In the **Company Name** list, click your company name.

**Note** We recommend that you name this backup "Pre-1099 Edits" to differentiate it from your other backups.

## Step 6: Verify the 1099 information and edit it if it is required

To print the 1099 edit list, follow these steps:

1. In Microsoft Dynamics GP, point to **Tools** on the **Microsoft Dynamics GP** menu, point to **Routines**, point to **Purchasing**, and then click **Print 1099**.

Verify that you have posted all transactions for the period and the year for all modules before closing fiscal periods. If you must later post transactions to a fiscal period that you have already closed, you can return to the Fiscal Periods Setup window to reopen the period before you can post a transaction.

**To close a fiscal period, follow these steps:**

1. Microsoft Dynamics GP, point to **Tools** on the **Microsoft Dynamics GP** menu, point to **Setup**, point to **Company**, and then click **Fiscal Periods**.
2. Click to select the **Purchasing** check box for the **Period** that you must close.

1. In Microsoft Dynamics GP, point to **Tools** on the **Microsoft Dynamics GP** menu, point to **Routines**, point to **Company**, and then click **Tax Year-End Close**.

A backup gives you a permanent record of the company's financial position at the end of the year, and this backup can be restored later if it is required. A backup lets you recover data quickly if a power fluctuation or other problem occurs during the year-end closing procedure.

**To create a backup in Microsoft Dynamics GP, follow these steps:**

1. In Microsoft Dynamics GP, point to **Maintenance** on the **Microsoft Dynamics GP** menu, and then click **Backup**.
2. In the **Company Name** list, click your company name.

Change the path of the backup file if it is required, and then click **OK**.

**Note** We recommend that you name this backup "Post Year-End" to differentiate it from your other backups.
