

HAZMAT

HazMat allows distributors complete visibility to DOT hazardous material shipping regulations - all added to your Microsoft Dynamics® GP system.

FUNCTION

HazMat adds the capability to associate hazardous inventory items with the official Department of Transportation (DOT) CFR Table 172.101. Additionally, it calculates passenger and cargo shipping quantity limits based on your unit of measure schedules.

IMPACT

With *HazMat*, you can access the information you need to make informed shipping decisions for hazardous item transport. This information will help you ensure compliance with regulations published in the DOT CFR Table 172.101.

FEATURES

- Inventory item classification with DOT CFR 172.101 information, including hazard classes, packing groups, UN ID numbers, and proper shipping names
- Access to DOT shipping restriction information, including shipping quantity and method, for hazardous inventory items
- Update utility allows updating of hazardous information to reflect CFR 172.101 table updates released by the DOT

BENEFITS

- Provides customer service and shipping with complete visibility to DOT shipment restrictions for items
- Allows inquiries using alternate units of measure to help you make informed shipping decisions

Contact your Microsoft Business Solutions™ reseller and discover how *HazMat* can work for your organization.

The screenshot shows the 'Item HazMat Maintenance' window. It contains the following fields and values:
