

# QUALITYCOUNT

*QualityCount provides a complete physical inventory system to streamline data collection and reduce reconciliation time.*

## FUNCTION

*QualityCount* provides the most robust physical inventory functionality available for Microsoft Dynamics® GP. *QualityCount* provides the detailed, controlled methodology, with full tag control, expected by material control and auditing professionals. Optional modules for RF Wireless, Palm Pilot, and Pocket PC barcode data collection facilitate even faster inventories.

## IMPACT

With *QualityCount*, full physical inventories and cycle counts can be performed while other business activities continue. Optional data collection devices can also be used to complete inventory counts.

## FEATURES

- Full tag control ensures all items are properly counted
- Ability to use either On-Hand or Available quantities as the book value
- Physical inventory may take place while other business activities continue
- Export of variance reports to Excel
- Import utility allows counts to be imported from any device using a comma or tab delimited file
- Cycle count calendar reporting and copying from one site to another
- Items can be counted using an alternate unit of measure

## BENEFITS

- Improves inventory accuracy
- Decreases effort in entering and reconciling physical counts
- Reduces downtime for physical inventory
