

Online Bill Pay for Microsoft Dynamics[®] ERPs

Improve Cash Flow | Automate Accounts Receivable | Overcome PCI Barriers

Today's customers expect the convenience of online billing. The good news? Giving your customers what they want also saves your company time and money.

ePay Advantage offers the latest in online bill presentment and payment technology for enterprises. Send invoice notifications to your customers. Let your customers view and pay their invoices online. Eliminate double entry, wasted man hours, and endless journeys down a paper trail.

Streamline

ePay Advantage provides real-time payment processing and eliminates double data entry. It seamlessly integrates the payment back to the accounting system and automatically applies payments to invoices.

Secure

Nodus ePay Advantage is a PA-DSS certified solution. With ePay Advantage powered by PayFabric[®], merchants can remove the credit card entry point, transmission and storage of sensitive payment information from their environments.

Save

ePay Advantage gives your customers the ability to check invoices and payment history at their leisure, reducing your call center demands.

Integrate

Nodus ePay Advantage connects to Microsoft Dynamics AX, SL and GP and can be easily integrated with an existing website or Nodus eStore Solution Stack to maintain your current infrastructure while enhancing operational efficiency.

Fit to Your Business Needs

Nodus ePay Advantage offers additional modules such as Recurring Billing, Web Sales Entry, Installment Payment Plan, Auto-Pay and more – each of which supports a unique business model and provides additional flexibility and convenience.

“Nodus Technologies has provided us with a product that has simplified our business processes while integrating seamlessly with business systems. With CCA and ePay, we have provided our CSR's and customers with the ability to quickly and accurately process credit card payments and receive account information. We couldn't be more pleased.”

ePay Advantage: Simple, Fast & Fully Automated

Online Bill Pay

- ✓ Secure and mobile-ready customer portal with account management
- ✓ Real-time or scheduled electronic payment processing (credit card, echeck)
- ✓ View & export payment reports to Excel and CSV files
- ✓ Multiple automatic email notifications with editable email templates
- ✓ One-click payment link for secure express payment
- ✓ Integrates with Microsoft Dynamics GP, SL or AX

Auto-Pay Option

- ✓ Enable automated payment processing on a recurring basis
- ✓ Provide additional convenience for customers while ensuring timely payment collection
- ✓ Recurring payment terms can be configured by internal sales representatives or customers
- ✓ Automatic generation of payment documents with seamless integration to Microsoft Dynamics GP

Recurring Billing Option

- ✓ Generate recurring revenue or subscription invoices through predefined preferences
- ✓ Specify terms, frequency, and price level to specific line item detail
- ✓ Secure and simple API to allow integration with other e-commerce websites for subscription needs
- ✓ Payments can be automatically processed against recurring documents and seamlessly integrated to Microsoft Dynamics GP

Installment Payment Plan Option

- ✓ Automatic payment calculations with amortization chart
- ✓ Collect financing charges for installment plans by setting interest rates and number of installments
- ✓ Payment progress tracking for internal staff and customers through online portal
- ✓ Transactions are processed automatically and directly integrated to Dynamics GP

Web Sales Entry Option

- ✓ Web-based sales order entry provides the convenience of entering sales transactions anywhere, anytime
- ✓ Support various forms of payment methods to provide flexibility for customers
- ✓ No restrictions on the number of sales representatives
- ✓ Ability to manage user security level for different functions, including price adjustment, customer creation, credit limit override and more
- ✓ Seamless document and payment integration back into Microsoft Dynamics GP

“Vistage is very dependent on the products provided by Nodus Technologies; therefore, the level of response that we require from their support staff is critical to our business. While we have sometimes waited days for other vendors to respond to support requests, the staff at Nodus has responded and resolved our issues in hours if not minutes with little or no impact to our operations. In addition, the Nodus support team always goes the extra mile in explaining what may have been the root cause of our issue so that we can take preventative action to eliminate future problems.”

MICHAEL BARTLING
Vistage International

“The Sea Island team appreciates the simple ePay Advantage web application... The Nodus implementation could not have gone more smoothly. The Nodus team was available, knowledgeable, and focused on helping us set up the application in the way that met our needs. Nodus made it easy!”
