

Mekorma Multi-Batch Management *plus* Mekorma Enhanced Electronic Payments

Angel Blum, Director Sales & Marketing
Craig Klapman, President

What We're Talking About

- **Multi-Batch Management**
- **Mekorma Enhanced Electronic Payments**
- **Q & A**

Multi-Batch Management

Multi-Batch Management

DEMO

The March to Electronic Payments

According to Institute of Finance and Management:

The costs associated with paying electronically are about 10% the cost of paying via paper check.

Roadblocks to Electronic Payments

According to the Aberdeen Group's *E-Payables Solution Selection Report*, the top 3 challenges that impede optimization :

- 1. Lack of integration between electronic payments and accounting systems.**
- 2. Shortage of IT resources for implementation.**
- 3. Difficulty in convincing suppliers to accept electronic payments.**

Solution 1

Lack of integration between electronic payments and accounting systems.

Mekorma's Historic Dedication to Integration

MEEP is built into Mekorma MICR so it shares the same level of Dynamics GP integration Mekorma MICR customers have come to expect.

Solution 2

Shortage of IT resources for implementation.

Almost no IT resources required

Implementing MEEP is as simple as upgrading Mekorma MICR

Solution 3

Difficulty convincing suppliers to accept electronic payments.

Mekorma works with your vendors for you

Mekorma assumes the burden of contacting Vendors to facilitate on-boarding and updates Dynamics GP when a vendor has been enrolled.

Added Bonus

- Nothing Changes in Dynamics GP Processing
- MICR annual maintenance WAIVED*
- Multi-Batch Management NO CHARGE*
- No additional Service Fees*

** for qualified clients*
